## HAZARD

**LACERATION RISK IF CONSUMERS POUR FROM OR INVERT THE BLENDER'S PITCHER AFTER REMOVING THE LID, WITHOUT ALSO CAREFULLY REMOVING THE LOOSE STACKED BLADE ASSEMBLY FROM THE PITCHER**

Consumers should check their blender to determine if they have one of the above models. All potentially affected blenders show the model number on the rating label that is molded into the bottom of the motor base.

This recall does not require consumers to return their blenders. The recall is to provide consumers with revised instructions, advising that consumers should empty the blender's pitcher through the locked lid's pour spout, or, alternatively, by removing both the lid and the stacked blade assembly from the pitcher before pouring.

REVISED WARNINGS AND INSTRUCTIONS**

Re: **Revised Instructions for Ninja BL660 Series Professional Blenders in Recall to Warn of Laceration Risk**

Dear Valued Customer:

The reliability and safety of our products is of utmost importance to SharkNinja. In order to ensure the safety of our consumers, we, in cooperation with the U.S. Consumer Product Safety Commission and Health Canada, have revised the warning and safety instructions for Ninja® BL660 series professional blenders. The blender's stacked blade assembly poses a laceration risk if consumers pour from or invert the blender's pitcher after removing the lid, without also carefully removing the loose stacked blade assembly from the pitcher.

**This recall neither requires consumers to return their blenders nor for retailers to stop the sale of any units.** Rather, the purpose is to provide consumers with revised instructions, advising that consumers should empty the blender's pitcher through the locked lid's pour spout, or, alternatively, by removing both the lid and the stacked blade assembly from the pitcher before pouring.

Based on our records, you purchased affected products for resale. Enclosed are recall posters announcing the revised instructions. Please display these posters in a highly visible location within stores that sold the recalled models for a period of no less than 120 days. The revised instructions are enclosed and can also be obtained either by clicking on our website ([www.ninjurecall.com](http://www.ninjurecall.com)) or from a link in the joint news release with the U.S. Consumer Product Safety Commission and Health Canada.

SharkNinja is committed to ensuring that our products are safe and reliable by setting high standards for quality control and thoroughly investigating any reported issues.

We take seriously the trust you and our shared customers place in the quality of SharkNinja products. Please contact me at 617-243-0235 if you have any questions or comments. Thank you for your business and cooperation. This recall is in cooperation with the U.S. Consumer Product Safety Commission and Health Canada; they will monitor the effectiveness of this recall program.
